### Origin of Easter in Christianity

Easter is one of the most important holidays in Christianity, celebrated to commemorate the resurrection of Jesus Christ. It is a time of joy and celebration for Christians all over the world. The origin of Easter dates back to the early days of Christianity when the first followers of Jesus celebrated his resurrection.

The Bible tells us that Jesus was crucified on the cross and died for the sins of mankind. Three days later, he rose from the dead and appeared to his disciples. This event is known as the Resurrection, and it is the cornerstone of the Christian faith.

The Bible also tells us that Jesus commanded his followers to remember his death and resurrection by celebrating a special feast. This feast was called the Pascha, or Passover, and it was celebrated on the first Sunday after the first full moon following the vernal equinox. This is why Easter is celebrated on a different date each year.

The early Christians celebrated the Pascha with a special meal, which included unleavened bread and wine. This meal was meant to symbolize the Last Supper,

which Jesus shared with his disciples before his death. The Pascha was also a time of joy and celebration, as it marked the beginning of a new life for Christians.

Over time, the Pascha evolved into the modern Easter celebration. The name "Easter" is derived from the Anglo-Saxon goddess of spring, Eostre. In the early days of Christianity, the Pascha was often referred to as "Easter" in English-speaking countries.
