### Parenting Styles: Its Effect On Children's Mental Health

Parenting styles have a significant impact on the mental health of children. It is important for parents to understand the different parenting styles and their effects on their children's mental health. This article will discuss the different parenting styles and their effects on children's mental health from a Christian perspective.

#### Authoritative Parenting

Authoritative parenting is a style of parenting that is based on mutual respect and communication. This style of parenting encourages children to be independent and to make their own decisions. It also encourages children to express their feelings and opinions. This style of parenting is based on the belief that children should be given the freedom to make their own decisions and to learn from their mistakes.

Authoritative parenting has been found to have a positive effect on children's mental health. Studies have shown that children who are raised in an authoritative parenting style are more likely to have higher self-esteem, better social skills, and better problem-solving skills.

**Salvation Prayers** : Dear Lord Jesus, I come to you today acknowledging my need for salvation. I confess that I have sinned and fallen short of your glory. But I believe that you died for my sins and rose again. I ask that you come into my heart and be my Lord. I commit to following you and living for you every day. Thank you for your love and for the gift of eternal life. In your name I pray, Amen. **Amen** [If you prayed the above prayers kindly click here to get more information](https://www.xgospel.net/harvest_form/form/?page=0&salvation=true)

## **Permissive Parenting**

Permissive parenting is a style of parenting that is based on the belief that children should be allowed to make their own decisions and learn from their mistakes. This style of parenting is based on the idea that children should be given the freedom to explore and make their own decisions.

Permissive parenting has been found to have a negative effect on children's mental health. Studies have shown that children who are raised in a permissive parenting style are more likely to have lower self-esteem, poorer social skills, and poorer problem-solving skills.

## **Uninvolved Parenting**

Uninvolved parenting is a style of parenting that is based on the belief that children should be allowed to make their own decisions and learn from their mistakes without any parental guidance or involvement. This style of parenting is based on the idea that children should be given the freedom to explore and make their own decisions without any parental interference.

---

Uninvolved parenting has been found to have a negative effect on children's mental health. Studies have shown that children who are raised in an uninvolved parenting style are more likely to have lower self-esteem, poorer social skills, and poorer problem-solving skills.

**Rededication Prayers** : Dear Lord Jesus, I come to you today with a heart of repentance. I confess that I have strayed from your path and have not been living according to your will. But I am here to rededicate myself to you and to make a commitment to follow you with all my heart. I ask for your forgiveness and for the strength and guidance to walk in your ways. I thank you for your love, grace, and mercy. I give you my all, my heart, my mind, my soul, and my strength, I trust in you and I pray this in Jesus' name, Amen. [Amen](#)
