### Introduction

Revivals are a powerful force in the Christian faith. They are a time of spiritual renewal and growth, and they can bring about a great sense of unity and purpose among believers. However, revivals can also bring about division and sectarianism. This essay will explore the potential for revivals to bring about division and sectarianism, and how Christians can respond to this.

### Division and Sectarianism

Revivals can bring about division and sectarianism in a number of ways. One of the most common is when different denominations or groups within a denomination interpret the revival differently. This can lead to disagreements over the interpretation of scripture, the interpretation of the revival, and the application of the revival to the church. This can lead to a sense of division and sectarianism, as each group seeks to defend its own interpretation and application of the revival.

Another way that revivals can bring about division and sectarianism is when they are used to promote a particular agenda or ideology. This can lead to a sense of division and sectarianism, as those who disagree with the agenda or ideology are seen as outsiders or enemies. This can lead to a sense of exclusion and hostility, and can further divide the church.

Finally, revivals can bring about division and sectarianism when they are used to promote a particular leader or group. This can lead to a sense of division and sectarianism, as those who disagree with the leader or group are seen as outsiders or enemies. This can lead to a sense of exclusion and hostility, and can further divide the church.

## Responding to Division and Sectarianism

As Christians, it is important to respond to division and sectarianism in a way that is consistent with the teachings of the Bible. The Bible teaches us to love one another, and to seek unity and peace (John 13:34-35). We should strive to be peacemakers, and to seek to bring unity and understanding to the church (Matthew 5:9).

We should also strive to be humble and open-minded in our approach to revivals. We should be willing to listen to different interpretations and applications of the revival, and to seek to understand and respect the views of others. We should also be willing to compromise and to work together to find common ground.

Finally, we should strive to be patient and understanding in our approach to revivals. We should be willing to accept that not everyone will interpret and apply the revival in the same way, and that this is not necessarily a bad thing. We should also be willing to accept that not everyone will agree with our interpretation and application of the revival, and that this is not necessarily a bad thing either.
